Installation

1 Preparation

a Remove 3form Panel from back mounting panel.

b Determine where light box will be mounted and verify proper fasteners based on substrate.

2 Attach Back Panel

Attach back panel to wall with enough fasteners to allow it to hold the weight of the feature.
Installation

3 Connect Electrical

Once the back panel is mounted to the wall, have a qualified electrician wire the lights and verify that everything is working before the panel is installed.

Wall Slide Dimmer (3-60-497) can have up to twelve 96W Power Supplies (3-60-765)

Add up to 50' max of 18AWG+ wire. Customer supplied.

Note: Wiring is as shown unless shown differently on 3form Lighting Layout Drawing
Installation

4 Reattach 3form Panel
