

# Design and Cut Your Double Custom Organics Fade 10' x 4'

Due to the fade pattern in your panel, changing the location of where the panel is cut may change the overall appearance of the cut piece. Please see the difference between cut pieces shown in examples 1 and 2.

**Using the large diagram below, please specify the design of your custom fade sheet and indicate on the drawing where you would like it to be cut and list dimensions.** We will use this drawing to manufacture the sheet(s) on your order. 3form lays each sheet up by hand to create a natural look. As such, there will be some variability between sheets and within the sheet. The image below is for reference only; your sheet will have its own characteristics.

Fade #2 begins  
 \_\_\_\_\_ inches  
 from the bottom of  
 the panel

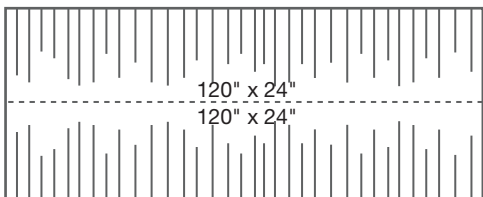

Fade #2 terminates  
 \_\_\_\_\_ inches  
 from the bottom of  
 the panel

Clear space begins  
 at \_\_\_\_\_ inches and  
 terminates at \_\_\_\_\_  
 inches from the  
 bottom of the panel  
 (2" minimum of clear  
 space)

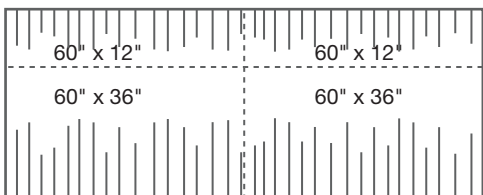

Fade #1 terminates  
 \_\_\_\_\_  
 from the bottom of  
 the panel

Fade #1 begins  
 \_\_\_\_\_  
 from the bottom of  
 the panel

**EXAMPLE 1**

**EXAMPLE 2**

NO CUTTING NEEDED. FULL SHEET ONLY.
