Installation

1 Drill Pilot Holes

Using the Privacy Screen Installation Template provided, layout the intended configuration of the privacy partition. Use the base plates (3-15-2133) with spacer piece (3-15-2155) to lay out the entire configuration. Drill Pilot hole in the center of the slot on the base plates (3-15-2133).

2 Install Baseplate

*Before fastening ensure the side with countersunk holes lines up with the slot of the End Post.

3 Attach Bottom U Channel

a Cut U Channel Glazing (3-15-2194) to length of U Channel.

b Lineup U Channel Glazing over U Channel and drill ⅜" diameter holes in the U Channel Glazing where the countersunk holes of the U Channel are.

C U Channel Glazing Channel (3-15-2194) for flush mount U Channel will have holes for countersunk screw access.

*3form stocks the drill bits required for the pilot holes.
If you wish to purchase a drill bit, please contact your 3form sales representative.
Installation

3. Attach Bottom U Channel cont...
   d. Center U channel between Base Plates.

4. Attach All Vertical Posts

5. Cut Glazing Channels (if necessary)
   Cut Glazing Channels (0-15-2139) down to the correct length. Correct Length is determined by length of straight on panel.
Installation

6 Install Glazing Channels and Panels

7 Install Top Caps
