Overview

200.25 is a minimalist hardware system made to work with ½” Varia. It is a floor and ceiling attached system meant to give a minimal hardware reveal. Using the insert block, 200.25 hangs Varia from the ceiling.
Installation

Required Tools

- Drill
- Chop Saw
- #3 Square Head Bit
- 1/4" Bit
- Metric Allen Wrenches
- Rubber Mallet
- Level
- Flat Head Screwdriver
- 3-15-1886
- 16" (407mm)
- #3-15-1887

1 Install Base Profiles into Floor and Ceiling

**a** For a single panel cut profiles (3-15-1886 and 3-15-1888) to approximately 1/4” more than the panel width (1/8” on each end). For multiple panels account for an additional 1/4” between panels, when using the two part clear seam “H” channel option.

*3-15-1887 comes cut to size.*

**b** For wall-to-wall installation insert blocks will need to be inserted prior to anchoring tracks (see Steps 2-3).
Installation

1 Install Base Profiles into Floor and Ceiling cont...

2 Loosely Assemble Insert Blocks

a Top Insert Block

b Bottom Insert Block
